February 19th - RIM 101 "The Future of RIM"

Session 1: Communications

Netania Walker – Associate Director, KPMG LLP - Immediate Past District Director at Toastmasters International
9:05-10:50am

Netania is a well-respected speaker and trainer who has taught and motivated professionals across the US for nearly 20 years. Netania uses lessons learned and motivation to share proven techniques to enhance professional and personal growth. Her trainings include courses on communication and presentation skills, working effectively within teams, and achieving desired results.

Session 2: Cyber Security

Chad Hunt – Supervisory Special Agent – FBI Atlanta
10:05-10:50 am

With over fifteen years of investigative experience, Mr. Hunt is currently a Supervisory Special Agent (SSA) with the FBI in the Atlanta Field Office, where he leads a cyber team that conducts investigations in support of the FBI's Cyber Division. SSA Hunt also spent two years at FBI Cyber Division Headquarters as a program manager and was also assigned to Australia as a cyber Assistant Legal Attaché. Prior to joining the FBI, he worked for twelve years in private industry.

Session 3: Risk, Reliance and the Resilience Imperative

Jeff Gaynor – President – American Resilience, LLC
11:00-11:45am

Jeff Gaynor's National Security experience ranges from foxholes to the White House. Understanding critical infrastructure is both a National enabler and disabler, in early 2005 Jeff created and directed the Critical Infrastructure Task Force (CITF) of the Homeland Security Advisory Council (HSAC). Jeff is a National thought leader, advocate and consultant for the application of operationally proven and objectively measurable resilience-based infrastructure, business and community preparedness policies and application of their nationally comprehensive, compatible and proven mindsets, metrics, methodologies, and technologies across the spectrum of American life.

Jeff's experience in the National security, preparedness and continuity arenas includes Defense Intelligence Senior Executive assignments on the Secretary of Defense Staff as the Special Assistant for Homeland Security; Acting Principal Director for Security and Information Operations and Director, Department of Defense Year 2000 (Y2K) Operations.

Mr. Gaynor is a retired United States Army Colonel. His service encompassed over 30 years of enlisted and commissioned service in capacities ranging from Communications Security, the Combat Arms and Military Intelligence disciplines.

In addition to his position at American Resilience, LLC; Jeff is an alumnus of George Washington University's Homeland Security Policy Institute; is a member of the Executive Advisors Committee of the Council on Competitiveness and is a Past President and CEO of the FBI's InfraGard Atlanta Members Alliance and the ~60,000 member InfraGard National Members Alliance.

February 19th - RIM 101 "The Future of RIM"

Session 4: Four Technologies that are Changing RIM Today

John Sakers – Director, Solutions Consulting - Imaging Solutions and Services, Inc. (ISSI)

Wayland Harkey - Business Solutions Director - Imaging Solutions and Services, Inc. (ISSI)

12:45-1:45 pm

John Sakers is an 18-year veteran of the digital document automation industry. John is the Director of Solutions Consulting at Imaging Solutions and Services, Inc. and is based in Atlanta. John has worked on digital automation projects that include office and engineering document conversion solutions; document management application design and implementation; business process automation; and advanced capture technologies. John earned his degree from Cornell University. John's interests include hiking, travel, and film.

Wayland Harkey is a 25-year veteran of the ECM/Imaging industry. Currently, he is the Business Solutions Director for Imaging Solutions and Services, Inc. (ISSI) where he applies technology solutions to meet client requirements. Previously, he served with Eastman Kodak Company (now Alaris, a Kodak Alaris Company), where he developed expertise in the design, creation, and marketing of many data capture and document imaging technologies and solutions. He achieved a Master of Science from Florida State University. In addition to spending time with his family, his interests include traveling, the Atlanta Track Club, and college sports.

Session 5: IGP Certification

Laura Boldt, CRM – Records and Information Management Analyst, SR – Georgia Power Company

2:00-2:45 pm

Laura Boldt, CRM, is a 30-year veteran in the Records and Information Management Industry. She has worked in different industries including nuclear, engineering, manufacturing and the utility industry. Laura has facilitated the implementation of a basic RIM program, selected and implemented new software, assisted in the development of retention schedules and trained all levels of employees on RIM. She earned her CRM designation 6 years ago and has a Bachelor of Art Degree in Business from Washington State University. Laura's interests include cooking, baking and travel.
